## CCIH Member Health Program Survey

### Faith-Based Organizations Provide a Variety of Care

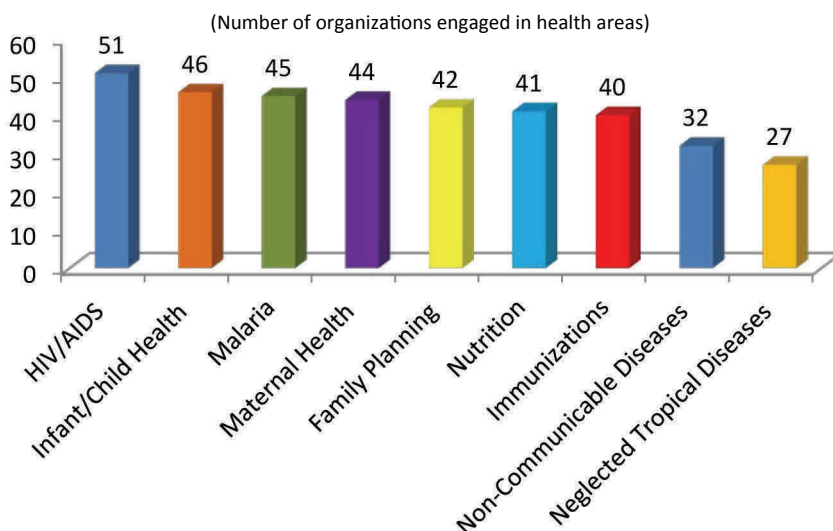

Christian Connections for International Health (CCIH) conducted a survey of its members in 2013 to determine the nature of health program activities they are engaged in and the variety of health interventions offered. The 68 responses out 157 organizations surveyed revealed a wide variety of types of programs operated by CCIH members:

#### CCIH Member Program Activities

The survey also revealed diversity in the global health areas addressed by CCIH members.

#### CCIH Member Health Program Areas

Many CCIH members are involved in HIV/AIDS programming, such as this program to Prevent Mother-to-Child Transmission of HIV run by Catholic Medical Mission Board (CMMB). Photo courtesy of CMMB.

#### CCIH Definition of Family Planning

CCIH has the following definition of family planning:

*“Enabling couples to determine the number and timing of pregnancies, including the voluntary use of methods for preventing pregnancy, not including abortion, that are harmonious with their values and religious beliefs.”*

All 59 respondents who answered the question agreed with the definition.
