

Thanks for filling in [30x30 CCIH Health Systems Commitment](#)

Here's what we've received from you:

30x30 CCIH Health Systems Commitment

The CCIH 30x30 Health Systems Initiative is designed to strengthen 30 health systems in which faith-based health services operate, by 2030. Goals of this initiative include increasing global attention to the role and needs of faith based services, coming along side them to strengthen their systems and then seeing the evidence of impact over time. This Commitment is your opportunity to share, for your organization, how you would like to play a role - focusing on what you plan to do, where, when, and with which other organizations. We would like to use this information to help us understand and then feature or promote the work of our members and those committing to health system improvements. See this link for Round 1 commitments: <https://www.ccih.org/wp-content/uploads/2019/08/CCIH-30x30-First-Round.pdf> See this link for an example completed application form (INSERT) See this link for a video on what CCIH is looking for in your application form (INSERT). Please complete this form as a way of committing publicly to working together to strengthen faith-based health systems by 2030.

Complete information on your HSS commitment by area

The next parts of the form will ask you a few more detailed questions about your commitment to specific health systems strengthening areas. Which sector(s) of Health Systems Strengthening does your commitment correspond to? Please note that you do not need to fill out a commitment in EVERY area, and to focus only on the areas that pertain to your commitment. The HSS areas are: Access to Essential Medicines & Supplies Financing Health Information Systems Health Workforce Leadership & Governance Service Delivery Community Services

Access to Essential Medicines & Supplies

Only complete if your commitment falls under this pillar of health systems strengthening.

My commitment addresses Access to Medicines & Supplies

Yes

No

What is your commitment to Access to Essential Medicines & Supplies?

In view of the rising burden of non-communicable diseases (NCDs) and increasing deaths and disability associated with NCDs, we are working on a project to increase availability of essential medicines for NCDs as defined by the Kenya Essential Medicines List at health facilities managed by our organization. We intend to track this by measuring the average availability of essential NCD medicines available (in stock and not expired) at our health facilities at the start of this project and then at the end of the project. In addition we would like to increase capacity of health workers in management of NCD medicines, through development of standard operating procedures (SOPs) for dispensing of NCD medicines and appropriate patient counselling. We will be engaged pharmaceutical company X and the Ministry of Health Division of Non-communicable diseases as partners in this project.

Which indicator(s) match(es) your commitment? (These will be finalized after discussion with CCIH)

Pre/post access to core set of relevant essential medicines

Percentage of facilities having essential drugs in-stock and nonexpired (e.g., antibiotics, anthelmintic, contraceptive methods)

Number or Percentage of facilities having key supplies and equipment (e.g. gloves, syringes, bandages)

SOPs (standard operating procedures) for dispensing and counseling available

SOPs for conducting procurement of equipment and pharmaceuticals, pre/post

Number or Percentage of facilities with safe water, electricity

Number or Percentage of facilities that maintain acceptable storage conditions (e.g. protection from theft, ventilation, temperature, and humidity)

Number or Percentage of key personnel trained in drugs, supplies, and equipment stock management

Number of machines broken or waiting for repair (pre/post)

Number of staff trained to repair broken equipment (pre/post)

of external facilities that benefitted from medicines, technology, equipment, or training provided by FBO

What is your commitment timeline: beginning - end (e.g. June 2021 - June 2025)?

June 2021 to June 2023

Geographic location: What country/countries are you committing to strengthen health systems in by 2030? If you are working in a specific area of 1 country, please specify.

Kenya

Is this focused on clinical services at a health facility(ies) or community-oriented programs outside of health facilities, or both.

Financing

Only complete if your commitment falls under this pillar of health systems strengthening.

My commitment addresses Financing

Yes

No

What is your commitment to Financing?

Which indicator(s) match(es) your commitment? (These will be finalized after discussion with CCIH)

Cost savings achieved for the organization and/or for patients

Percent of total expenditure on health spent on country priority health services

Average cost per inpatient bed

Cost per outpatient visit

Financial health: Total revenue/Total costs

% of annual budget from local revenue vs. % from donor funding OR Percentage of the annual operating budget that is partly covered by income generated through service delivery

Existence of financial management systems, systems of accountancy, and regular auditing

% or number of patient population covered by health insurance

% of user fee exemptions and waivers

% increase of funds dedicated to infrastructure improvement

% of facility spending that reaches the lowest income quintile

For funders/technical agencies: Number of health facilities financially supported*

What is your commitment timeline: beginning - end (e.g. June 2021 - June 2025)?

Geographic location: What country/countries are you committing to strengthen health systems in by 2030? If you are working in a specific area of 1 country, please specify.

Is this focused on clinical services at a health facility(ies) or community-oriented programs outside of health facilities, or both.

Health Information Systems

Only complete if your commitment falls under this pillar of health systems strengthening.

My commitment addresses Health Information Systems

Yes

No

What is your commitment to Health Information Systems?

Which indicator(s) match(es) your commitment? (These will be finalized after discussion with CCIH)

Data used to inform decision making (y/n or pre/post)

Availability of clear standards and guidelines for: 1) data collection, 2) reporting procedures methods, and 3) data analysis to be performed

Use of data for planning, budgeting, or fundraising activities in the past year

Evidence of ongoing training related to health information system collection and analysis

of external facilities (e.g. public sector, other NGOs) that benefitted from information gathered by FBO (please provide examples of these benefits/partnerships)

Other:

What is your commitment timeline: beginning - end (e.g. June 2021 - June 2025)?

Service Delivery

Only complete if your commitment falls under this pillar of health systems strengthening.

My commitment addresses Service Delivery

Yes

No

What is your commitment to Service Delivery?

In our efforts to increase availability of NCD medicines at our health facilities, we will be tracking the number of NCD outpatients attending NCD clinics who have been dispensed with medicines and counselled on appropriate medicines use.

Which indicator(s) match(es) your commitment? (These will be finalized after discussion with CCIH)

Number of activities organized which address basic needs of vulnerable populations, pre/post

% increase of care for [specific health outcomes, e.g. maternal care, screenings, vaccines, etc.]

Number and types of conditions treated, pre/post

Number of patient visits per doctor, nurse, and CHW, pre/post

Number or percentage of target population covered by intervention, pre/post

Utilization of facilities/services by the poor, pre/post

Annual numbers of inpatients/outpatients treated

Perception of quality by respondents for selected services (bad, acceptable, good, excellent)

Quality Assurance system, accreditation, and/or processes that monitors the service quality of health care facilities

% of population living within X kilometers of new or expanded facilities or services, pre/post

Other:

What is your commitment timeline: beginning - end (e.g. June 2021 - June 2025)?
