Goal/Objective

- To highlight the transformative impact of nursing education on young women from marginalized communities, specifically emphasizing its role in empowering individuals, families, and communities.

Personal Transformation leading to community transformation

Personal transformation

Economic independence & stability

Social Mobility

Personal transformation that ripples outward into community transformation

Knowledge and Skills
(professional training) +
Christian Values and
Ethics

Emerge as individuals
radiating confidence,
discipline, and a
profound sense of
purpose.

Personal conviction transforms
them into channels and agents
of change for their peers,
challenging traditional gender
roles within their families.

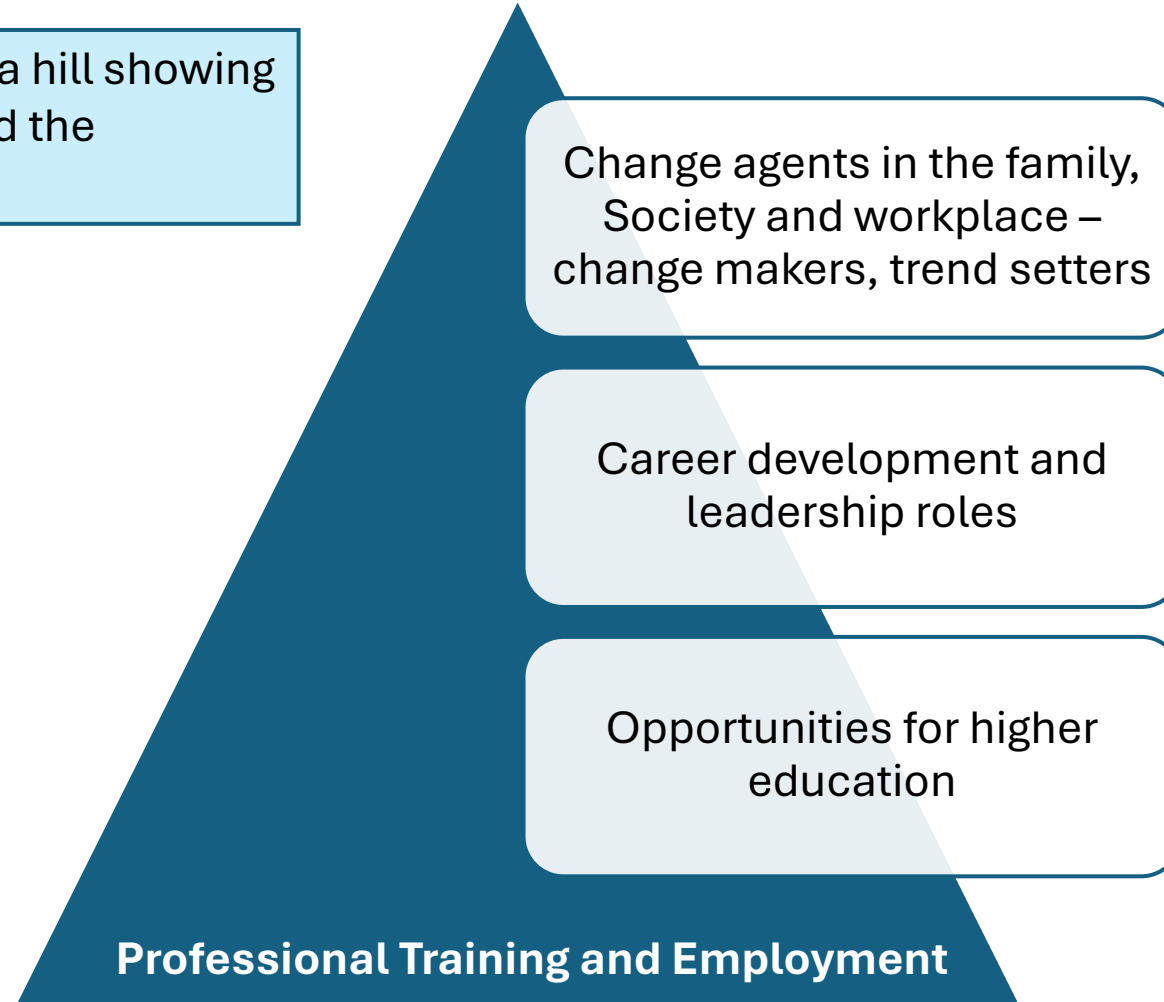

***They become the light to their communities, showing the way,
and the salt, preserving and passing these values to their
families and friends.***

Economic stability – Family – Community

- Low Socio-economic status + Professional training ➡ 100%
job opportunities ➡ Personal financial stability and
contribution to Family financial needs ➡ Economic Security
for family ➡ Improvement in the Community's economic
status.

Social Mobility

Light placed on a hill showing way to peers and the community.

Salt adding flavour -
preserving the culture ,
Values and ethics in family
and community

A photograph of a small, rectangular, light-brown cardboard card with the words "Thank you!" written in a black, cursive script. The card is placed on a bed of dry, light-colored straw or hay. To the right of the card is a single white daisy with a bright yellow center. In the background, two more daisies are visible but out of focus. A dark, thin object, possibly a pen or pencil, lies on the left side of the card. The entire image is framed by a white, curved border at the bottom.

Thank
you!
