Reaching The World's
Most Vulnerable Children

LEARNING FOR
HUMANITY

Strengthen Healthcare Systems

Ensure basic health services are available and affordable by providing medicines, equipment, supplies, renovations, and implementing essential preventative programs.

Transform lives by developing leadership, collaboratively generating effective health services, and fostering initiatives for broader holistic change.

Empower Communities

Support and nurture clinical and community service providers with training, monitoring, mentoring, supervision, tools and job aids. Sponsor economic strengthening initiatives for lasting engagement and sustainability.

Build Capacity

LEARNING FOR HUMANITY

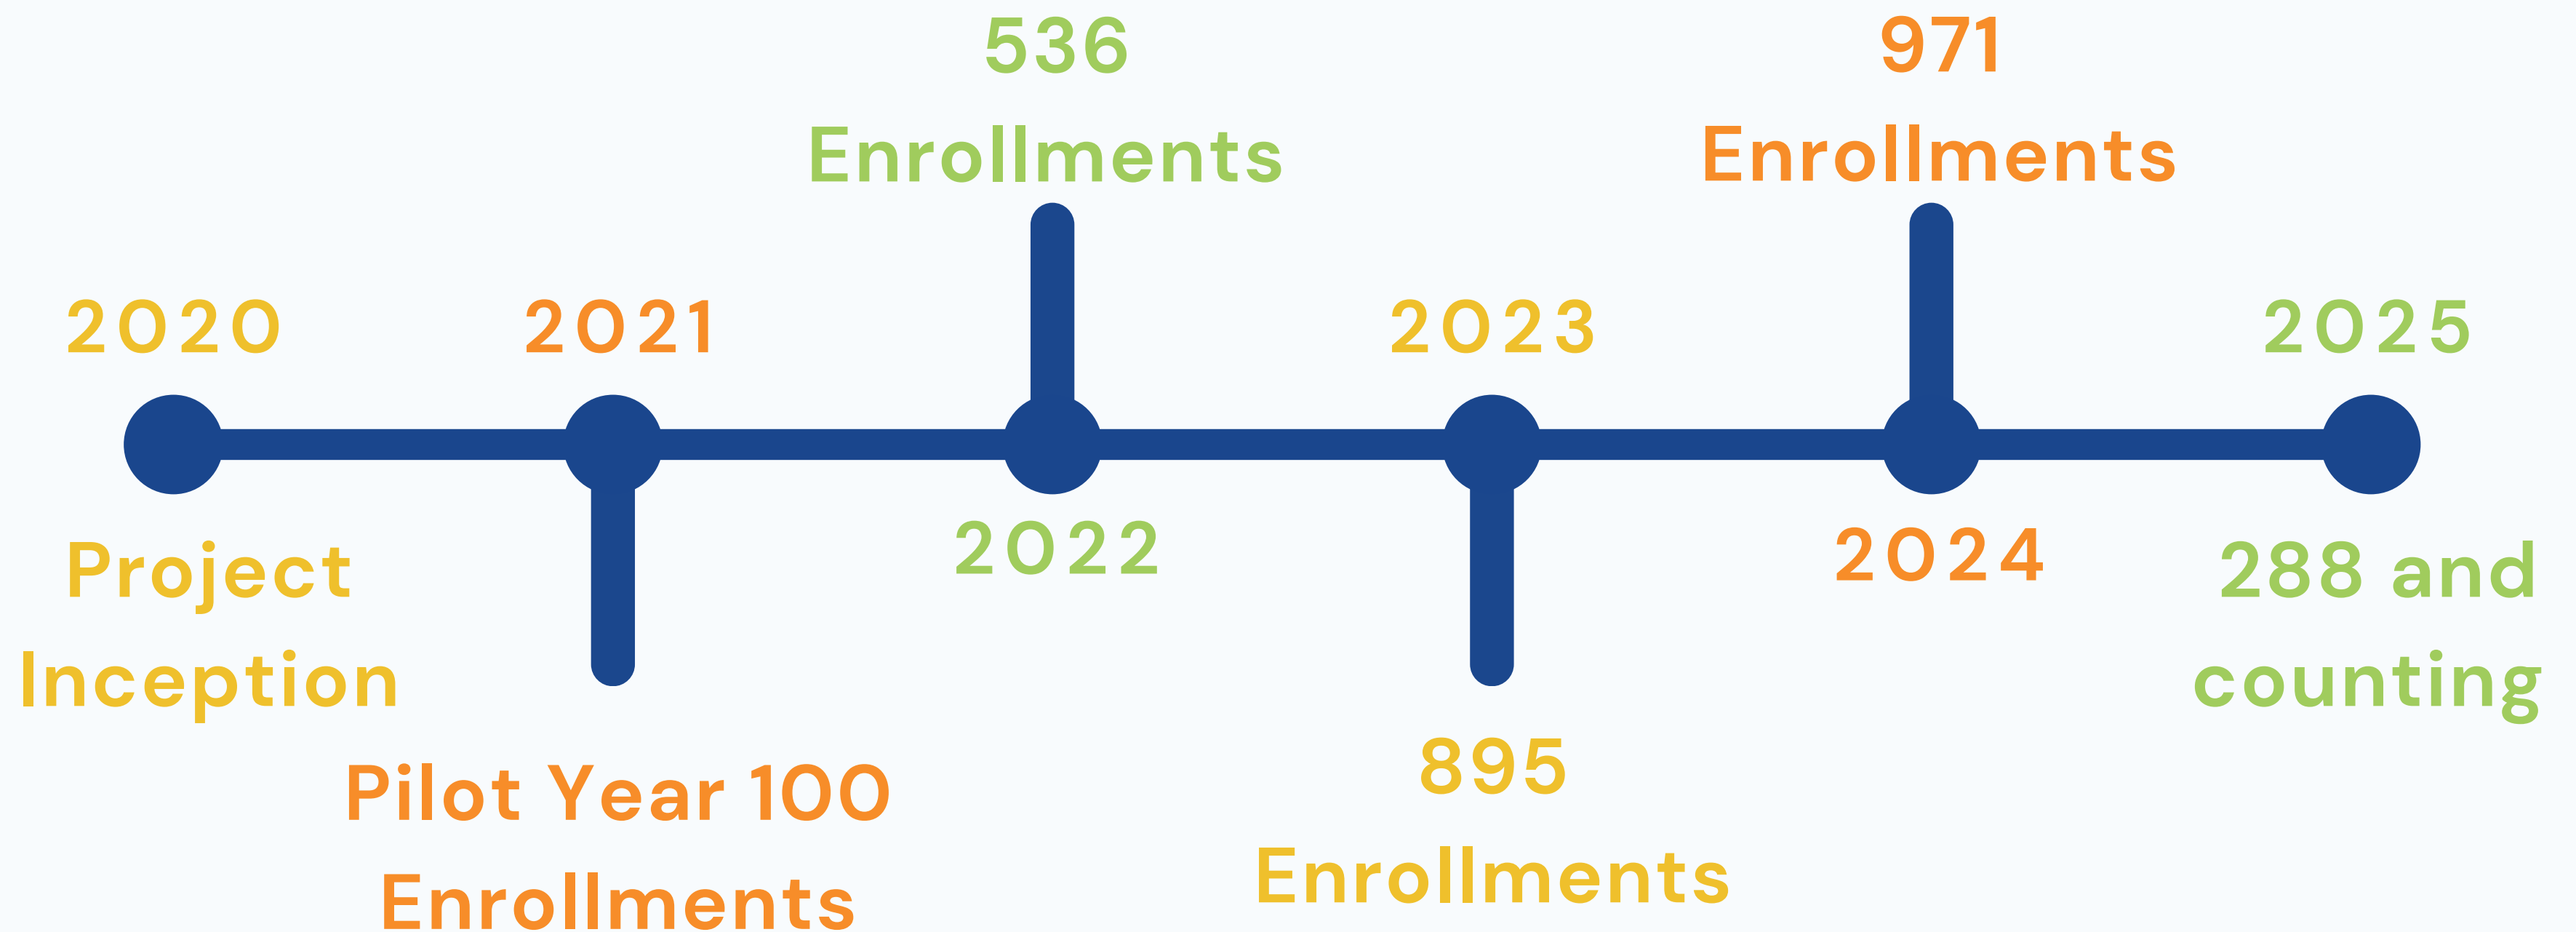

Is L4H accessible & effective?

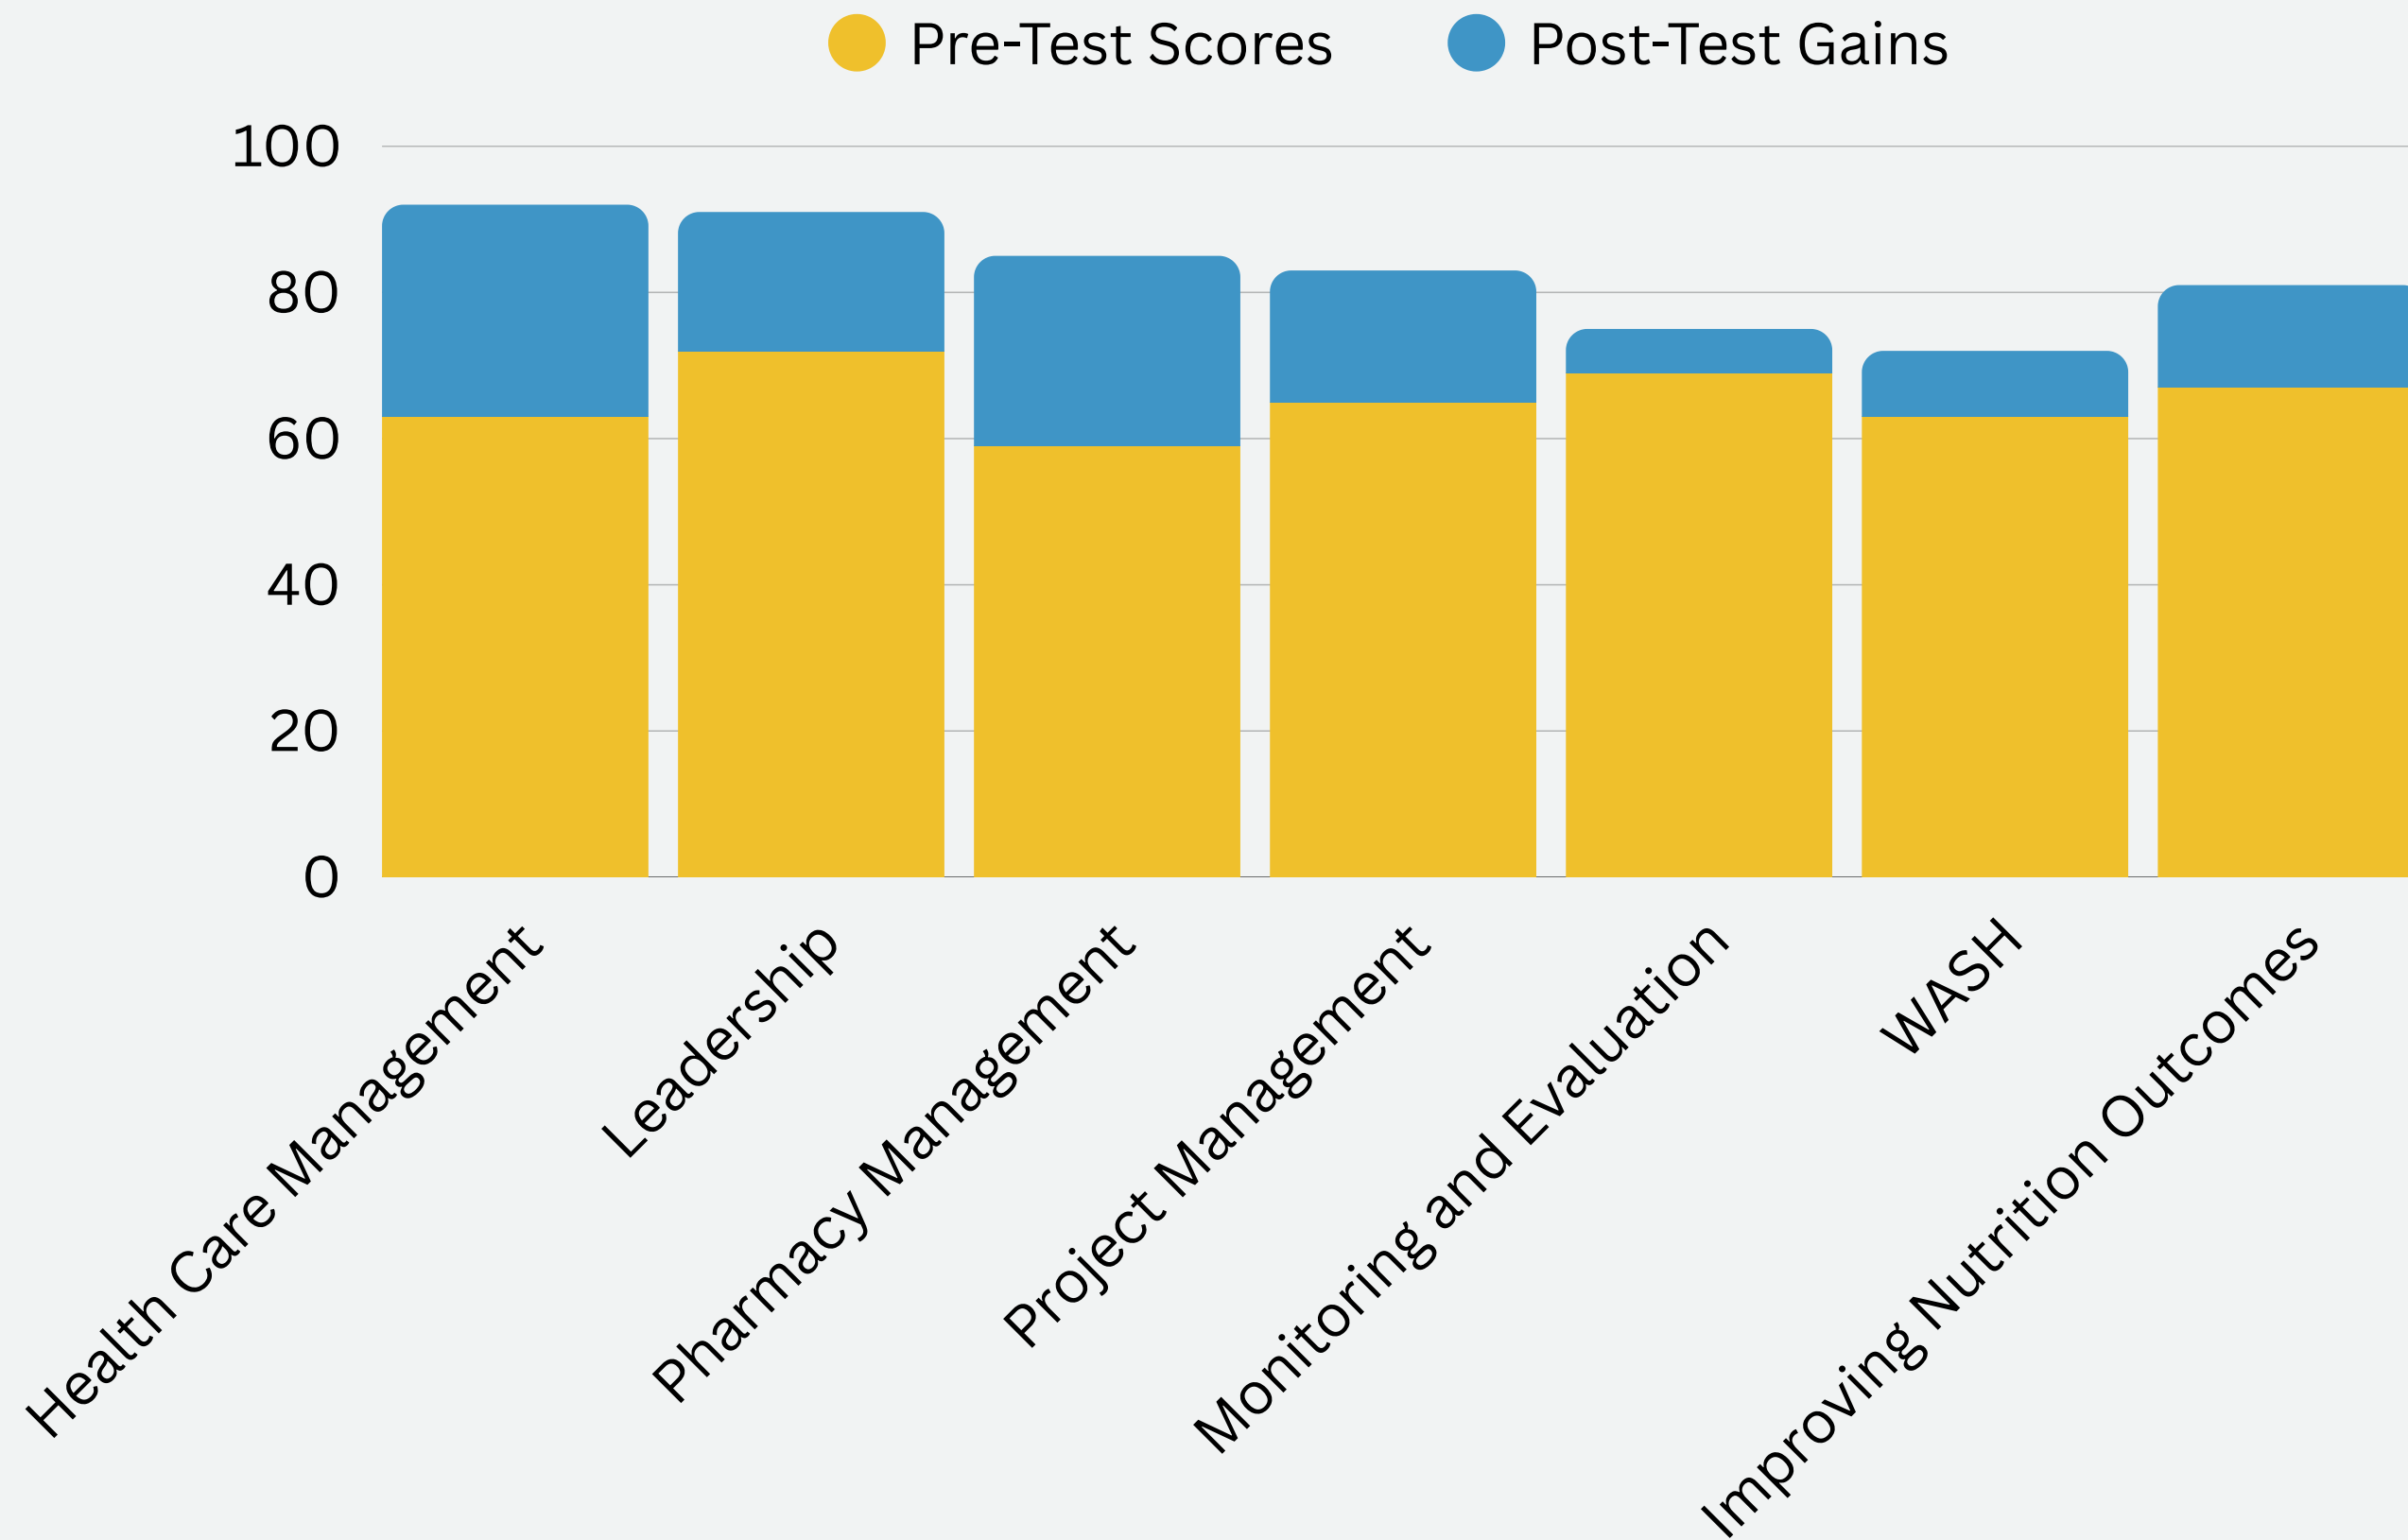

Learning for Humanity's primary audience is Catholic Sisters who work with women and children in rural settings, including hospitals, health facilities, clinics, orphanages, schools, and beyond.

- 15 learning programs
- Offered in English, French, and Spanish
- 1,591 unique students
- 2,507 enrollments
- 74% are Catholic Sisters
- 442 congregations
- 78.9% completion rate — significantly higher than the typical e-learning average.

L4H STUDENT IMPACT STORIES

Sr. Judith Mwango, Zambia **Improving Nutrition Outcomes**

Sr. Judith's "Sustaining Hope" project addressed child malnutrition through awareness, cooking demos, and CHW training. Her team treated 10 children—8 made full recoveries—sparking lasting health improvements in the community.

Sr. Kabule Kazembe, Zambia **Project Management**

Sr. Kabule's project brought solar power to clinics, homes, and the convent, and installed a borehole supplying clean water to 700 people—eliminating waterborne diseases and restoring dignity.

Sr. Francelene Labbé, Haiti **Advocacy**

Sr. Francelene launched a local latrine initiative by combining outreach, lobbying, grant writing, and budgeting—bringing dignity and health to entire neighborhoods.

Sr. Lilian Makena, Kenya **Economic Strengthening Activities**

Sr. Lilian launched a poultry project to fund her pharmacy, aiming for 50% sustainability within a year. Income from chicken sales helped ensure long-term access to essential medicines.

Sr. Cynthia Obi, Nigeria **Leadership**

Sr. Cynthia reduced clinic wait times by over 50% by assigning staff roles and streamlining filing, improving patient flow, clarity, and comfort in care delivery.

Sr. Vivien Chanda, Zambia **Maternal and Child Health Communications**

Sr. Vivien reduced neonatal deaths from 39 to 14 by leading respectful maternal care efforts—offering compassionate support, organizing triage, and ensuring essential supplies and peer support for mothers.

MENTORSHIP: THE NEXT STEP

New mentorship cohorts will guide students in:

- Developing fundable projects
- Strengthening documentation and evaluation
- Sustaining impact in their communities
